

Kim Ziton joins *Keller Williams Premier Realty*

I have worked with hundreds of clients during my thirteen years with Kootenia Homes and Michael Lee.

I have witnessed the high and lows of the market place. Given my broad knowledge base of the market and products, I have been able to help my clients navigate through these turbulent times.

I pride myself on providing individual attention. Whether it's buying or selling, it's all about YOU, your needs, your dreams and your satisfaction.

I will be able to help you sell your existing home, through such channels as knowing the competition; my researching capabilities; an eye to staging your home appropriately; innovative marketing ideas; and persistence.

Most importantly, I have a relationship with a vast majority of the agents in the area which lends me the opportunity to encourage them to visit your home. I believe every agent should have a belief system in the product they are selling/marketing.

When I believe in your home, I can guarantee you that my cast in regards to marketing will be wide. I have the knowledge to know what will set your house apart from the rest, based on years of experience. Allow me to exceed your expectations!
